Yellow Ball Competition

The fundamentals:

- A Team player will play a pre-designated yellow ball on a day convenient to him
- A separate card will be required for the Yellow Ball round
 - Hence, a player will need to complete two cards when playing one of his Yellow Ball rounds
- The Yellow Ball is live only for the time that it remains in play i.e. if the player loses the ball on the second hole after scoring three points on the first hole, his score for his Yellow Ball round will be three point
 - This must be signed-off and verified by a playing partner who is not a member of the player's Yellow Ball team
- The player should then proceed with his round, using a ball of his choice and have his card marked in the usual way
- To enter a team, please submit your details through the website in the usual way
